

5086PCE

86 Day RM

5086PCE is a very consistent yielding hybrid that has a strong disease package plus solid overall agronomics. Abundant flared husks contributes to rapid drydown. 5086PCE is a medium statured plant with very good emergence and early vigor plus excellent late season plant health.

Management Guidelines

-  Good choice for corn on corn
-  Position on more productive soils
-  Plant med-high to high populations
-  Harvest timing– normal to late
